

Simplify and Grow

Your business is growing and you're ready to cover new ground, but...

"On average, merchants have 5 gateway processors, 4 acquiring banks, and accept 6.2 payment methods."

— Merchant Risk Council ¹

Somewhere along the line, someone convinced businesses that offering flexible global e-commerce means connecting and managing multiple banks and gateways.

Simplify...

BlueSnap's All-in-One Payment Platform is proof that your payments life doesn't have to be complicated. Everything you need is built in.

One account with one contract:

Reduce costs and connect to global banks without the need to manage multiple merchant vendors, contracts, or relationships.

One dashboard:

Get a consolidated and consistent view of all your payment activity.

1
Platform

One payout:

Simplify accounting operations with one account to reconcile.

One integration:

Minimize development resources in managing multiple integrations—plus, we take care of keeping the payment stack up-to-date.

...And Grow

In addition to making your payments life easier, BlueSnap's powerful platform delivers a scalable payment model that drives higher customer satisfaction and business growth.

110 Payment Types and eWallets Built-In:

There's no need for a specialized gateway when you can get more than 110 payment methods and eWallets from a single connection to BlueSnap.

Global Banking Partnerships:

We offer access to 30 global banks, 100 shopper currencies and 13 payout currencies.

Intelligent Routing:

One connection to the Platform provides automatic transaction routing to the appropriate bank for your shopper, plus fail-overs and subscription retries to assure maximum success rates.

Accept More Payments:

BlueSnap gives you exceptional payment flexibility, including online and mobile checkout, marketplace functionality, subscriptions, invoice payments and manual orders via a virtual terminal.

...And Grow

A comprehensive fraud and risk management stack to protect sales.

Built-in chargeback management to help recover lost revenue.

Rich and flexible reporting data to gain valuable insights about your business.

A flexible architecture to easily add future checkout capabilities.

Easy integration with hundreds of business platforms.

Is your payment system costing you more than it should? Download our free **Workbook for Online Businesses** to find out.
